PROFESSIONAL EXPERIENCE

Invsto

Python Programmer Internship

April 2020 – Aug. 2020

Remote

- Lead programmer for data upkeep and loading, maintaining over 5,000 records
- Assisted a small international team in growing a fintech trading startup
- Developed python code to read, upload, and check data in AWS Arctic

First Derivatives

Financial Engineer/Consultant

June 2018 – Feb. 2020

New York

Bank of Montreal

Business Analyst for FXMM Operations

Nov. 2019 – Feb. 2020

Montreal

- Supervised daily USD/CAD reconciliation from BMO branch transactions for the Back-Office Project Delivery Team
- Investigated 500 potentially eligible clients using WSS, narrowing the list to 200 fully eligible clients for onboarding into BMO's Trade Management Online Confirmation System
- Targeted 70 out of scope trades by understanding MiFID trade regulations for European transactions

BNY Mellon

Data Analyst for KYC/AML CIP Remediation

Jan. 2019 – Oct. 2019

New York

- Collaborated with a team of ten analysts on a remediation project to adhere to new standards of KYC/AML
- Inspected a total of 21,000+ out of date client records by collecting reliable verification documentation
- Monitored the teams progress using Pivot Tables and advised team managers on Excel issues
- Corresponded with 20 high profile BNY Mellon clients over email or phone to gather missing information

ScotiaBank

Risk Management Analyst

Sept. 2018 – Dec. 2018

New York

- Facilitated the Liquidity Stress Testing project (Regulation YY for Foreign Banking Organizations)
- Lead UAT tester for BAU monthly code releases within Tableau
- Prepared and executed test cases, compiling the results into excel-based reports for senior management
- Implemented parallel-run test cases during the Bank's migration of their Stress Testing solution from Tableau to Axiom, raising any defects for remediation prior to go-live

Turkana Basin Institute

Engineering Research Project

May 2017 – June 2017

Kenya

- Relocated 50 students from a collapsing school building to new classrooms built using an abandoned dormitory
 - Managed the relocation project from start to finish (idea, design, planning, gathering resources, and implementation), executed with the cooperation of 5 locals
 - Inspired tribe members to create instruments out of unwanted items and initiated a music club for the local school
-
